Education

Master of Computer Applications — 2023 – Present
Indira Gandhi National Open University
Focus: Software Engineering, Cloud Technologies

B.Sc. Computer Science — 2019 – 2022
Mumbai University
First Class Honors – CGPA: 7.7

Skills

Languages: JavaScript, TypeScript, C#„ Python, HTML/CSS
Frontend: Angular (6-19), RxJS, Material UI, Bootstrap, Web Forms, Ionic
Backend: .NET Core, Node.js, REST APIs, Microservices
Database: SQL Server, MongoDB, Firebase, MySQL
Tools: Git, GitHub, Postman, Swagger, JIRA, Vercel, Crystal Reports

Experience

Software Engineer — Dec 2024 – Present
Clover Infotech Pvt Ltd, Mumbai

- Developed and maintained Angular applications integrated with REST APIs, implementing lazy loading for optimized performance
- Enhanced application performance by 70% through code optimization and debugging techniques
- Led the transition to microservices architecture, improving scalability and maintainability
- Mentored junior developers on Angular and .NET Core best practices and design patterns

Junior Software Developer — Aug 2022 – Dec 2024
Benchmark Computer Solutions Ltd, Mumbai

- Built full-stack applications using Angular and .NET Core with emphasis on reusable component modules
- Resolved 50+ critical bugs across multiple projects, improving system reliability by 20%
- Optimized SQL stored procedures for enhanced database performance
- Participated in Agile sprint planning, daily standups, and retrospectives

Certifications

- Advanced Angular – Great Learning
- ASP.NET Core MVC – Advanced

Professional Summary

Full-stack Developer with 3+ years of experience specializing in Angular (6–19), .NET Core, REST APIs, and SQL Server. Proven track record in optimizing application performance (up to 70%), implementing microservices architecture, and delivering high-quality software in Agile environments.

Projects

Microlabs — *Clover Infotech*
Angular v6→16, .NET Core | Angular Developer

- Led migration from Angular 6 to 16, reducing bundle size by 40% and load time by 65%
- Coordinated backend integration and implemented lazy loading for modules
- Mentored 2 junior developers on Angular architecture and best practices

Gen AI Web App — *Personal Project*
Angular, Google Gen-AI | Full Stack Developer

- Developed AI-powered content generator with secure authentication and real-time API integration
- Designed responsive user dashboard and analytics, increasing user engagement by 30%
- Implemented Google Gen-AI for dynamic content creation and suggestions

Ayushakti ERP — *Benchmark Solutions*
Angular, .NET Core, Crystal Reports | Full Stack Developer

- Created dynamic forms module and automated PDF report generation system
- Integrated Crystal Reports for business analytics, reducing manual reporting by 50%
- Collaborated with QA team to ensure bug-free deployments

TMS + Canteen — *Benchmark Solutions*
ASP.NET MVC, SQL Server | Full Stack Developer

- Developed modular forms for transport and canteen management systems
- Automated reporting workflows with Crystal Reports and optimized SQL stored procedures
- Gathered user requirements and delivered features on schedule

ReEnterprise — *Benchmark Solutions*
.NET Core, SQL Server | Full Stack Developer

- Developed comprehensive admin panel with TreeView/GridView components
- Built secure REST APIs for CRUD operations and role-based access control
- Optimized SQL queries, reducing response times by 25%

StyleHub — *College Project*
Android, Firebase, Razorpay | App Developer

- Developed salon booking app with real-time database and payment processing
- Implemented push notifications and secure user authentication system
- Integrated Razorpay API for seamless in-app payments
